

Library EDUCATION Resources

<http://www.library.astate.edu>

Many types of resources are available to you through the Dean B. Ellis Library. This guide is intended to help you find both print and online education resources. Please note: this guide is only a starting point for your research, it is not meant to be a comprehensive list of resources. If you need further assistance, please visit the Information Desk in the library.

Finding Books In The Dean B. Ellis Library

All books in the library are arranged by subject using the Library of Congress classification system for call numbers and subject headings. The call number for education begins with "L". The basic breakdown is as follows:

L7 - L991	- Education (General)
LA5 -LA2396	- History of Education
LB5 - LB3640	- Theory and Practice of Education
LC8 - LC6691	- Special Aspects of Education
LD13 - LD7501	- Individual Institutions; United States
LE3 - LE78	- Individual Institutions; America, except United States
LF14 - LF5477	- Individual Institutions; Europe
LG21 - LG961	- Individual Institutions; Asia. Africa. Oceania
LH1 - LH9	- College and School Magazines and Papers
LJ3 - LJ75	- Student Fraternities and Societies, United States
LT6 - LT501	- Textbooks

The numbers that follow these beginning letters relate to the narrower subject of the item. For example, a book about teaching children with ADHD would begin with the call number LC4713, while a book about distance learning would begin with LC5803. Occasionally a very different call number will appear. This means the item is about more than education and higher importance was given to the other subject when the call number was assigned.
