

NURSING & Library HEALTH SCIENCE Resources

<http://www.library.astate.edu>

Many types of resources are available to you through the Dean B. Ellis Library. This guide is intended to help you find both print and online nursing and health professions resources. Please note: this guide is only a starting point for your research, it is not meant to be a comprehensive list of resources. If you need further assistance, please visit the Reference Desk in the library.

Finding Books in the Dean B. Ellis Library

All books in the library are arranged by subject using the Library of Congress classification system for call numbers and subject headings. The call number for anything medical-related begins with "R." The basic breakdown is as follows:

R5 – R920	-	Medicine (General)
RA1 – RA1270	-	Public Aspects of Medicine
RB1 – RB214	-	Pathology
RC31 – RC1245	-	Internal Medicine
RD1 – RD811	-	Surgery
RE1 – RE992	-	Ophthalmology
RF1 – RF547	-	Otorhinolaryngology
RG1 – RG991	-	Gynecology & Obstetrics
RJ1 – RJ507	-	Pediatrics
RK1 – RK667	-	Dentistry
RL1 – RL793	-	Dermatology
RM1 – RM950	-	Therapeutics. Pharmacology
RS1 – RS441	-	Pharmacy & Materia Medica
RT1 – RT120	-	Nursing
RV1 – RV431	-	Botanic, Thomsonian, & Eclectic Medicine
RX1 – RX675	-	Homeopathy
RZ201 – RZ999	-	Other Systems of Medicine

The numbers that follow these beginning letters relate to the narrower scope of the item, for example: Maternity Nursing (RG591 .P637 2003) vs. Pediatric Nursing (RJ245 .T475 2001). Occasionally a totally different call number will appear. This means the item is about more than one subject and higher importance was given to the other subject when the call number was assigned.
